### Fellows Energy closes buy of coal project in Carbon

Colorado-based Fellows Energy Ltd. on Wednesday said it has completed the purchase of the 5,242-acre Gordon Creek Project in central Utah from The Houston Exploration Co.

The Carbon County project has coal reserves near other operating coal bed methane projects.

Fellows said it is beginning the planning and permitting process for future drilling. The company has several other projects, including the 183,000-acre Overthrust Project in northern Utah and the 25,000-acre Johns Valley Project in southern Utah.
